

Huawei HCCDA-AI certification

Instructor : Fawad Bahadur

Huawei Cloud EI: Empowering AI Innovation Globally

Vision, NLP, Speech, OCR, ModelArts, HiLens

Huawei Cloud Enterprise Intelligence (EI) Portfolio

Vision:

- Object detection, image classification, facial recognition

Natural Language Processing:

- Text classification, sentiment analysis, machine translation

Speech:

- Voice recognition, speech synthesis, real-time transcription

OCR:

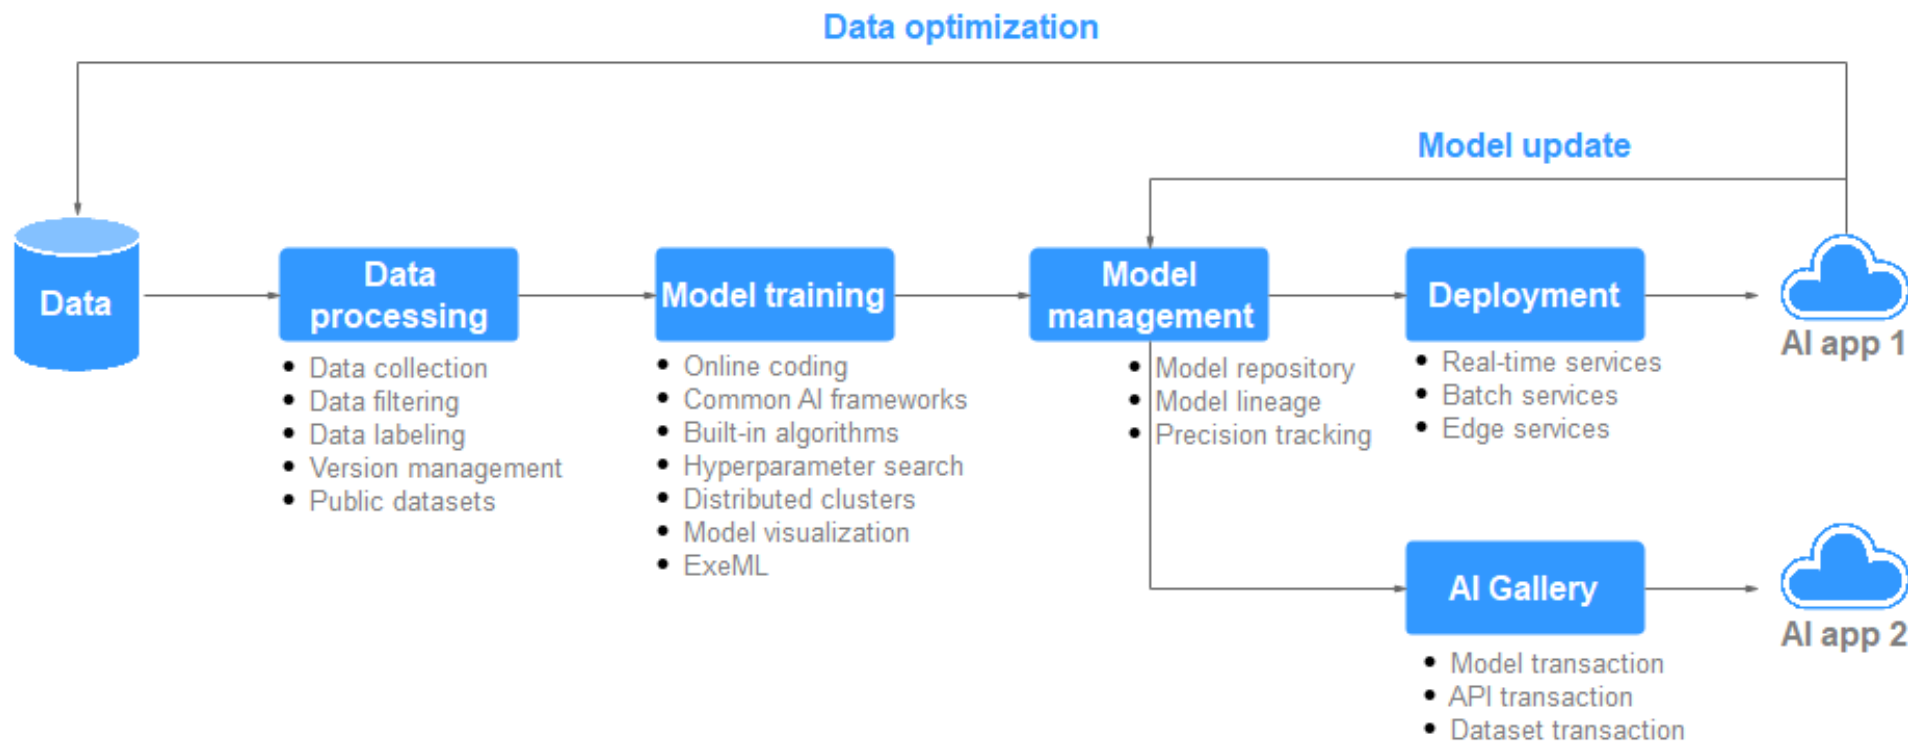

- High-accuracy document and invoice recognition

WEI ModelArts: End-to-End AI Lifecycle Management

- ✧ Data labeling, training, tuning, deployment in one platform
- ✧ AutoML support for beginners and experts
- ✧ Supports TensorFlow, PyTorch, MindSpore

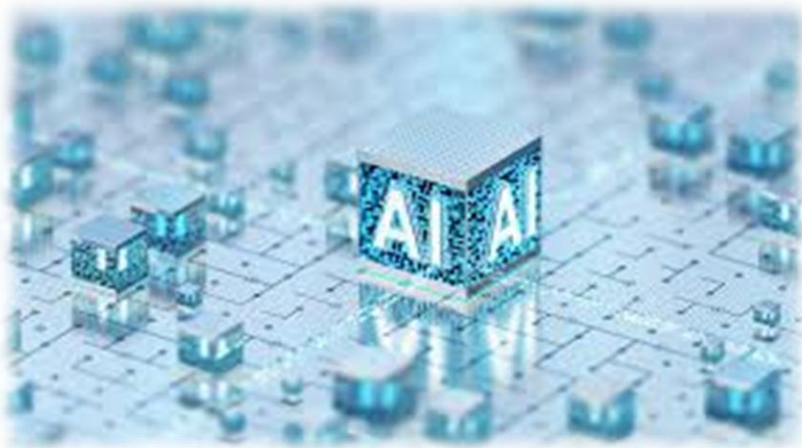

HiLens – Edge AI with Cloud Intelligence

- ✧ Built-in AI models for face, object, and behavior recognition
- ✧ Works seamlessly with ModelArts and the cloud
- ✧ Use cases: Smart surveillance, retail analytics

Huawei's Global AI Initiatives

- ✧ Ascend AI processors deployed globally
- ✧ Open-source MindSpore framework
- ✧ AI education with universities (e.g., Seeds for the Future)
- ✧ Collaborations in healthcare, transportation, and smart cities

AI Use Cases Powered by Huawei

Use Case	Huawei Capability
Smart Healthcare	NLP + OCR + Speech AI
Intelligent Finance	OCR + NLP + ModelArts
Retail Video Analytics	Vision AI + HiLens
Automated Call Centers	Speech Recognition + NLP
Smart City Surveillance	Vision AI + HiLens
